

## Santa and his Sleigh – Recipe Sheet

The following list combines all the requirements to complete the whole project as several of the beads are used in multiple sections.

At the beginning of the line is the Letter used to indicate that bead throughout the instructions. Where appropriate we have included the recommended Miyuki bead number for the project in square brackets. Also at the end of each line we have specified the Oak Tree Crafts retail number for that item (note, more than one might be required).
